Supernature

Xsonic

Once upon a time, science opened up the door
We would feed the hungry fields
Till they couldn't eat no moreBut the potions that we made
Touched the creatures down below
And they grew up in a way that we'd never seen beforeSupernature, supernature
Supernature, supernatureThey were angry with the man
'Cause he changed their way of life
And they take that sweet revenge
As they trample through the nightFor hundred miles or more
You could hear the people cry
But there's nothing you can do
Even God is on their side
(God is on, God is on, God is on their side)Supernature, supernature
Supernature, supernatureGods will break the ice and throw it in the air
The creatures will decide who goes whereHow can I explain? Things are different today
Darkness all around, no one makes a sound
Such a sad affair, no one seems to careSupernature, supernature
Supernature, supernatureBetter watch out, there's no way to stop it now
You can't escape, it's too lateLook what you've done
There's no place that you can run
The monsters made, we must payMaybe nature has a plan to control the ways of man
He must start from scratch again
Many battles must he winTill he earns his place on earth
Like the other creatures do
Will there be a happy end?
Now that all depends on youSupernature, supernature
Supernature, supernature(Zupernature)
Supernature
(Zupernature)
Supernature
(Zupernature)
SupernatureZupernature, zupernature
Zupernature, zupernature
Zupernature
