

# When I Loved You Like That

Jessica Simpson

You lit me up just like a match  
Then you burned me out just as fast  
You flew me high just like a kite  
Up in the air, leaving me there alone in the sky  
Why you gotta be so complicated?  
Give me the world and then take it back  
When I loved you  
When I loved you like that  
You put my love in a bottle in the ocean  
Thinking you could control the time, yeah  
Just so you could have the feeling  
Of wanting me back one more time, yeah  
I held you like the morning holds  
The sun so carefully, I let you shine  
So wild and free, so endlessly  
I gave you every part of me  
Why you gotta be so complicated?  
Give me the world then take it back  
When I loved you, yeah  
When I loved you like that  
Now you're walking in the city streets  
And you're cold and you're all alone  
The only thing keeping you company  
Is the melody in your song, keep singing it  
Hirsch scotch on the rocks  
And drink your misery down  
Go home and make love to her  
And picture me, picture me, yeah, picture me  
When I loved you like that  
When I loved you like that  
When I loved you like that  
When I loved, when I loved  
When I loved, when I loved  
When I loved you like that  
When I loved you like that
