

# Miss U Less, See U More

## Faithless

Oh, woman! I love the way you're so deliberate  
How you light your cigarette  
Head on one side as you pull  
You look almost regal and  
I'm diggin' it, on your mobile  
One eye closed, blue smoke  
Curling out your nose Wearing one of my shirts and  
What some call panty hose  
'Cause you look wicked in scanty clothes  
Long legs like an antelope  
You're my antidote to city life, my pretty wife  
Hooked up the year before  
Together thirteen outta twenty four And you would never guess  
I wanna miss you less and see you more  
See you more, see you more, see you more  
And when I kiss you, I'm never sure  
How do I get to miss you less and see you more? Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better I can gauge your mood from your approach to food  
You use your rude red shoes to accessorize your attitude  
Desensitized to my roving eyes and ready smile  
I get lovin' that's versatile, worth that extra mile  
Lying next to me, your textured voice whispering  
I'm listening with my whole skin  
Holding onto the moment for all it's worth  
How could I continue to be the sky without my earth And when I kiss you, I'm never sure  
And when I kiss you, I'm never sure  
And when I kiss you, I'm never sure  
How do I get to miss you less and see you more? Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better [Incomprehensible] Miss you less, see you more, love to  
know you better  
Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better  
Miss you less, see you more, love to know you better

Miss you less, see you more, love to know you better Oh, woman!
