

Forever

Walter Meego

You know I'd wait forever
If I have time to
But I don't have forever
To wait for you yeah

So when I say I want
Us to be together
Just say you want me too
And I'll be yours forever

I could show you a place
You've never been there before
I could show you the way
You just can't go back no more

I could make you excited
I could make you excited

I could show you what it is
I could take you there
I could give you what you miss
You've got no reason to be scared

I could make you excited
I could make you excited

You know I'd wait forever
If I have time to
But I don't have forever
To wait for you yeah

So when I say I want
Us to be together
Just say you want me too
And I'll be yours forever

Whoo!, Whoo!

Yeah, I could show you a place
You've never been there before

I could show you the way
You just can't go back no more

I could make you excited
I could make you excited

You know I'd wait forever
If I have time to
But I don't have forever
To wait for you yeah

So when I say I want
Us to be together
Just say you want me too
And I'll be yours forever

Whoo!, Whoo!
