

It's Only Christmas (feat. Ronan Keating)

[Kate Ceberano](#)

Do you remember what you wished for every Christmas?
Do you say a prayer and send it on a star?
Well maybe Im just being over sentimental.
But now its Christmas and I miss us most of all
You know I never really took the time to thank you
I was always thinking you were here to stay
Is its something in the air that gets me crazy
Cause now its Christmas and I miss us just the same
When its cold I get lonely
I cant talk I cant walk I cant breathe
Then I dream and you hold me and the angels are singing with me
I guess its Christmas when I miss us most of all
So let the snow come down and drown out all my sorrows
Maybe I can dance again with you
And as the children sing I swear I heard you whisper
That now its Christmas but I miss us just the same
When its cold I get lonely
I cant talk I cant walk I cant breathe
then I dream and you hold me and the angels are singing with me
I guess its Christmas when I miss us most of all
I guess its Christmas when I miss us most of all
Cause now its Christmas and I miss us most of all
