Becoming A Monster

Self Against City

Let's take this all the way
(Oh oh oh, oh oh oh)
Nothing can touch us now
(Oh oh oh, oh oh oh)Lately I've been thinking about changing myself
Into everything I ever wanted to beDon't be afraid of what I'm becoming
I swear that I will always remember
Never forget how I became who I am
Never forget how it all started
(Started with saying)Let's take this all the way
Let's take this all the way
Nothing can touch us now
(Oh oh oh, oh oh oh)
Now that the future is here
And our purpose is clearListen closely and I'll start going over
How things around here are going to be from now on
Dancing circles around you
I never gave a fuck about you or your friends anywayLet's take this all the way
Let's take this all the way
Nothing can touch us now
(Oh oh oh, oh oh oh)
Now that the future is here
And our purpose is clear
We are farther along then I can ever rememberLet's take this all the way
(Oh oh oh, oh oh oh)
Nothing can touch us now
(Oh oh oh, oh oh oh)
Now that the future is here
And our purpose is clear
We are farther along then I can ever remember
