The Third Wave

Ciani

They tried to build a nation, greater than anyone
But what they didn't know was that someone else would have control
The mob starts infiltrating, at gunpoint they will roam
They show no mercy and the government is on their payrollNo compromising, a nation going blind
The leaders are on their knees
The third wave has just begunThe whole world is corrupted, it's spinning out of control
The third wave is on the roll
It's slipping through our fingers and rising to the top
The third wave is on the rollRoll with me, roll with me250 million, involved in organized crime
It's growing like a tumour, we need to find the cure in time
It's coming from the east and trying to control the west
It's crawling across the border right up to the leader's nestLike a spider's web, politicians in their net
Strings are growing strong
The third wave has just begunThe whole world is corrupted, its spinning out of control
The third wave is on the roll
Its slipping through our fingers and rising to the top
The third wave is on the rollRoll with me
Roll with me
Roll with meIt's on the roll, it's on the roll, it's on the rollThe whole world is corrupted, its spinning out of control
The third wave is on the roll
It's slipping through our fingers and rising to the top
The third wave is on the roll
The whole world is corrupted, it's on the roll
The whole world is corrupted, it's on the roll
The whole world is corrupted, it's on the roll
