

Get On The Right Thing

Paul McCartney

All at once you get love on your mind
And your world is as kind as a penny
Oh, and you knew it all along, you did the right thing
Believe me it's true and it can happen to you All at once you get sound in your ears
And your cloud disappears into yellow Well, you know they were wrong
Get on the right thing
Well, you knew it all along
Get on the right thing
Believe me it's so
Because I happen to know Try a little love, you can't go wrong
Get on the right thing
Get on the right thing
Get on the right thing My little love you can't go wrong
Get on the right thing
Get on the right thing
Get on the right thing
Get on the right thing, you All at once we see things in our skies
And we both realize it together Well, you know they were wrong
Get on the right thing
Yes, you knew it all along
Get on the right thing
I believe me it's so
Because I happen to know You can't go wrong
Get on the right thing
Get on the right thing
Get on the right thing And try a little love and it can't go wrong
Get on the right thing
Get on the right thing
Get on the right thing
Get on the right thing, you Try a little love, you can't go wrong
Get on the right thing
Get on the right thing
Get on the right thing Try a little love, you can't go wrong
Get on the right thing
Get on the right thing
Get on the right thing Get on the right thing
Get on the right thing
Get on the right thing
