

# Better Get It Right

Natalie

Oh, oh  
Yeah, better get it right  
Oh, oh  
Yeah, better get it right Better get it right  
Don't wanna be your part time lover  
Better get it right  
If you want my love for sure  
Better get it right  
Don't wanna be another number  
'Cuz you and me go together boy You know I make it right for you  
Because I simply adore you  
I got your back, you notice that  
I'm holdin' it down for you I'm always here when you need me  
I give the best to my baby  
I get it right, I want it right  
Baby, can you feel me? I really wanna be your only  
I'm not just tryin' to be your homie  
And you could be the one to hold me  
When I'm lonely inside, yeah And you could be the one to touch me  
And you could be the one to love me  
And you could be the one to kiss me  
Get it right, yeah Better get it right  
Don't wanna be your part time lover  
Better get it right  
If you want my love for sure  
Better get it right  
Don't wanna be another number  
'Cuz you and me go together boy I give you all of my sweetness  
It's sad to you say you're my weakness  
I give it up all that I have  
'Cuz everythin' is for you If I could be the only girl  
We can get it right  
I'm tellin' you boy right now  
'Cuz let me be the one Better get it right  
Don't wanna be your part time lover  
Better get it right  
If you want my love for sure  
Better get it right  
Don't wanna be another number

'Cuz you and me go together boy  
Where sayin' that we got issues  
'Cuz I make pimp moves  
And I break your heart, you need tissues  
'Cuz I make you cry and I know you try  
You say bye bye, I can't lie, I die  
Now my situation up in the L, I can pop fly  
Should you let go or should you hold on  
One day I promise I'ma put a smile on your face  
I left the choice of my cologne on your pillow case  
You want attention I gotta get money  
In addition your broke heart need fixin'  
But use your superwoman with x-ray vision  
Look inside me to see my mission to get it right  
Really wanna be your only  
I'm not just tryin' to be your homie  
And you could be the one to hold me  
When I'm lonely inside, yeah  
And you could be the one to touch me  
And you could be the one to love me  
And you could be the one to kiss me  
Better get it right, yeah  
Better get it right  
Don't wanna be your part time lover  
Better get it right  
If you want my love for sure  
Better get it right  
Don't wanna be another number  
'Cuz you and me go together boy
