

No Trix, No Games

Victoria Beckham

I know what buttons to push to turn a man on
I can make you blush
I can make you sweat
Make you come over all possessive
Like I'm your angel to protect
Make your heart beat at 134 beats a minute
Think your life's empty without me in it
But what you don't know, won't hurt you
So I keep it to myself that I'm crazy about you
Treat them mean to keep them keen
An expression, a hard lesson that I had to learn
'Cos when I give my heart too easily
That's when I get burned
I know what buttons to push to turn a man on
Doesn't mean, I'm gonna push 'em with you
That would be wrong
Gonna strip away my make up
What you get is what you see
No trix, no games just me
I can make you beg, yeah
Make you lose your breath
I can get you feelin' all embarrassed
Like you're standin' there undressed
'Cos when I turn it on, I can be magnetic
Then make you think that you're not gonna get it
Pull your strings make you do anythin'
With you never knowing that I'm crazy about you
Treat them mean to keep them keen
And expression a hard lesson that I had to learn
'Cos when I give my heart too easily
That's when I get burned
I know what buttons to push to turn a man on
Doesn't mean, I'm gonna push 'em with you
That would be wrong
Gonna strip away my make up
What you get is what you see
No trix, no games just me
Behind the smoke and mirrors
There's a girl you never see

No trix, no games, no illusions, no fantasy
And I want you to know her, 'cos she's the real me
No trix, no games that's the way it's got to be
I know what buttons to push to turn a man on
Doesn't mean, I'm gonna push 'em with you
That would be wrong
Gonna strip away my make up
What you get is what you see
No trix, no games just me
I know what buttons to push to turn a man on
Doesn't mean, I'm gonna push 'em with you
That would be wrong
Gonna strip away my make up
What you get is what you see
No trix, no games just me
