

Dub the Frequencies of Love

Gogol Bordello

Give me a vision when I got none
And the thunderbolts in each hand of my own
For I'm comin' back to level
Everythin' they taught us wrong
Onto transmigration With a crave for panacea
Our world is crawlin' on all fours
In a search of a new prayer
Gods are throwin' thunderbolts So dub it like tovarisch would
Dub it like a best friend would
Dub it like a brother would
Onto transmigration [Incomprehensible] how to keep goin'
Of walkin' trails of ultimate
From the streets to the sub-conscience
From sub-conscience to the God So dub it like tovarisch would
Dub it like a best friend would
Dub it like a brother would
Onto transmigration Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow Master tell me how come everythin' they taught us
Turn out to be so goddamn wrong
In the meantime music from the tiny island
Takes over the world So dub it like tovarisch could
Say it like a brother would
Brother hold me like a mother would
Onto transmigration Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow Give me a vision when I got none
And the thunderbolts in each hand of my own
For I'm comin' back to level
Everythin' they taught us wrong Dub it like tovarisch would
And say it like a brother would
Dub it like tovarisch would
Onto transmigration Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow Onto transmigration
