Dub the Frequencies of Love

Gogol Bordello

Give me a vision when I got none

And the thunderbolts in each hand of my own

For I'm comin' back to level

Everythin' they taught us wrong

Onto transmigrationWith a crave for panacea

Our world is crawlin' on all fours

In a search of a new prayer

Gods are throwin' thunderboltsSo dub it like tovarisch would

Dub it like a best friend would

Dub it like a brother would

Onto transmigration[Incomprehensible] how to keep goin'

Of walkin' trails of ultimate

From the streets to the sub-conscience

From sub-conscience to the GodSo dub it like tovarisch would

Dub it like a best friend would

Dub it like a brother would

Onto transmigrationFrequencies of love

Gather 'round, oh come on

Frequencies of love

Overcome, overthrowMaster tell me how come everythin' they taught us

Turn out to be so goddamn wrong

In the meantime music from the tiny island

Takes over the worldSo dub it like tovarisch could

Say it like a brother would

Brother hold me like a mother would

Onto transmigrationFrequencies of love

Gather 'round, oh come on

Frequencies of love

Overcome, overthrowGive me a vision when I got none

And the thunderbolts in each hand of my own

For I'm comin' back to level

Everythin' they taught us wrongDub it like tovarisch would

And say it like a brother would

Dub it like tovarisch would

Onto transmigrationFrequencies of love

Gather 'round, oh come on

Frequencies of love

Overcome, overthrowOnto transmigration
