# Tell It to Me

## Brite Futures

If you tell it to me, don't tell me on the telephone
Tell it to me, oh, tell me when we're all alone
Tell me you need me, want to see me all the time
Give me a sign that you want to be all mineNow, I'm out of breath
Coming for you
Biting my lipShe lives on the 20th floor of town
But the elevator's broken down, broke down
And I couldn't tell her soon enough, oh
That I love her sister so muchIt was hot, it was wet
It was Fourth of Ju-Ju-July
The fireworks were just up in the summer sky
Look in her eyes, there was something burnin' in my mind
Wanted to tell her, searchin' for the perfect lineNow, I'm out of breath
What do I do
Biting my lipShe lives on the 20th floor of town
But the elevator's broken down, broke down
And I couldn't tell her soon enough, oh
That I love her sister so muchWhen I open that door-oor-oor
When my feet hit the floor-oor-oor
Smile and sing "Hello-o-o"
I'm gonna finally let you know-ow-owTell it to me, oh, tell me when we're all alone
Give me a sign that you want to be all mine
Now I'm out of breath
Coming for you
Biting my lipShe lives on the 20th floor of town
But the elevator's broken down, broke down
And I couldn't tell her soon enough, oh
That I love her sister so muchShe lives on the 20th floor of town
But the elevator's broken down, broke down
And I couldn't tell her soon enough, oh
That I love her sister so much
