

Reunion

Maxwell

So long, I've searched for you
So long but now it's true Girl, it's our reunion, reunion
It's our reunion, reunion I'm always here, I'm in your ear, yeah
Love stereo, so don't you fear, don't fear 'Cause it's our reunion, reunion Since last we loved, no one's come near
No girl can ever compare to you my dear Girl, it's our reunion
(Reunion, reunion)
Reunion, reunion It's our reunion
It's our reunion
It's our reunion It's our reunion
It's our reunion
It's our reunion
(We're back together)
It's our reunion
It's our reunion
(We're back together, hey)
(We're back together, yeah)
It's our reunion
(We're back together baby, baby, baby)
It's our reunion
