# You told me

## Melanculia

You told me that you'd never leave me
You came and opened up my eyes
Well you told me that you'd never
Be leavin this ol' boy
I've said enough of those silly goodbyes
You told me that you love me
(never mind you know)
It's not forever I know
You told me you'd stay with me baby
It's not forever I know
You gave me good reason

You gave me reason to smile
Well you took that good reason
And broke it into pieces
Now I've got to be alone for a while
Don't matter just what you think about it
You never bother to call
Don't matter that I can't live without it
Don't matter at all
