Agonizing World

Massacra

Chemical pollution
We're heading for disaster
Progressive destruction
We are all in hot water
Enviromental
Deterioration
Agonizing world
Stark desolation
Bleching out chimney stack's
Industrial area
Noxious smoke / Posion gas
On the verge of asphyxia
Wasted life
We have reached the point of no return
End of live
Now our future takes a turn
Nuclear explosions
No regard for life
No man's land / Danger zones
Dead silence / No sign of life
Radioactive waste
Contamination
Agonizing world
Stark desolation
Carbonic dioxides
Nuclear radiation
Acid rain / Toxic clouds
Critical situation
Wasted life
We have reached the point of no return
End of life
Now our future takes turn
