

# Wake Me Up

**Norah Jones**

Wake me up when it's over  
Wake me up when it's done  
When he's gone away and taken everything  
Wake me up  
Wake me up when the skies are clearing  
When the water is still  
'Cause I will not watch the ships sail away  
So please, say you will  
If it were any other day  
This wouldn't get the best of me

But today I'm not so strong  
So lay me down with a sad song  
And when it stops then you'll know  
I've been gone too long  
But don't shake me awake  
Don't bend me or I will break  
Find me somewhere between my dreams  
With the sun on my face  
I will still feel it later on  
But for now I'd rather be asleep
