## DJ HENY.G

It will take some time for me  
To get the point of what  
Was wrong with this  
    I saw it was  
    Too many cold  
    Too many scared  
    And bold and failed  
    Turn on the lights  
    And watch me run  
You will follow me to the end  
    You will see  
    I will take care of everything  
    And I will make you better off  
    I assure you  
    And you won't even be around  
And you won't say a word to cope  
    And I will ask the better ones  
    How come you lie  
How come you ain't a part of us  
    You will see  
And you will always watch for me  
    You will see  
And you will always watch for me  
    Turn on the lights  
    And watch me run  
You will follow me to the end  
You will seeAnd you will always watch for me  
    I will take care of everything  
    And I will make you better off  
    I assure you  
    You will see meYou will see  
And you will always watch for me  
    You will see me  
    Turn on the lights  
    And watch me run  
You will follow me to the end  
    You will see  
    I will take care of everything  
    And I will make you better off

I assure you  
You will see  
You will see  
You will see  
You will see me.
