

Aspiring Fires

Mother Mother

Baby, so you think you know crazy
I think you know what you know
But what you know
You don't know for sure Baby, you wanna see me crazy, ay
Well, I'll show you what that's like
And then I'll wave goodbye
As you run for your life A little advice for aspiring fires
You get put out if you don't get a little wild
Try again, try again, get it right
You don't got the due diligence to lose your mind
You gotta be kiddin' me, right? Maybe you're watching too much TV, hoo
Because crazy in the box
Is every thing that crazy's not A little advice for aspiring fires
You get put out if you don't get a little out
Try again, try again, get it right
You don't got the due diligence to lose your mind I'm losing all my mind I'm losing my mind again
[Incomprehensible]
Not to drive me crazy A little advice for aspiring fires
You get put out if you don't get a little wild
Try again, try again, get it right
You don't got the due diligence to lose your mind
You gotta be kiddin' me, right? Baby, you wanna see me crazy, crazy
Baby, you wanna crazy, no, no Well, I'll show you what's that like
Then I'll wave goodbye as you run for your life
