This Is

MC L.E.

[Chorus]
This is magic, this is new beginnings
This is come into my life, come into my life
This is sunshine, this is how we're livin'
This is come into my life, come into me

This is almost, this is all I wanted
This is come into my life, come into me
Oh oh oh, take me home

When I first met you I almost wanted to run away
What is this, my heart

Now I'm standing and I'm so sure you're the one for me
Oh oh oh, take me home

[Chorus]

And I will love you, I will love you
Always, I'll never stop

I'm gonna love you, yeah baby always

I will never stop
I'll never stop

Oh oh oh don't you want to take me home

[Chorus]

This is almost it's everything I wanted
Come into my life, come into me

Oh oh oh don't you want to take me home
'Cause I'm going to love you
I know I'm gonna love you
Yeah yeah, I say always, I'll never stop
Where ever you are, always
I'm gonna be right there
Yeah, I say always baby

You can call on me yeah yeah
Oh always I will be there and I'll never stop
Always I will be there and I'll never stop
