Resolution

Pillar

There's a whole world going on outside But you've been stuck inside your mind

Do you let fear motivate you

Or does it complicate you?

Leaving you a step behindYou're left with no one standing by your side

You try to justify your lies

It starts to agitate you

Don't let this aggravate you

There's no need to apologizeWe all need resolution

You can find your way through

There's only one solution

You've got to find what you're looking for You been hiding in that weak disguise

Hoping no one sees your foolish eyes

Don't let that intimidate you

Don't let it separate you

From all the ones who question whyJust keep on reaching for the sky

And you'll find out it's not that high

When you let love elevate you

When you let it gravitate you

You're in for the ride of your lifeWe all need resolution

You can find your way through

There's only one solution

You've got to find what you're looking forDon't let this moment pass you

Don't let distractions blind you

Don't let the questions stop you

Don't let the answers miss youWe all need resolution

Where to find your way through

There's only one solution

You've got to find what you're looking for How can you find

If you don't know what you're looking for?
