

# One second (feat. Alex Prince)

## Nana

One second in my life is passing me by  
one second's passing by like a bird in the sky  
god let me know will I live or will I die  
and if I have to go I wanna go with a smile  
with a smile ah smile

I can hear the clock tick tack tick tack  
a second in my life will I win or flip flop  
flash back and the voices that I hear I don't know  
the lord is my shepard  
no fear 'cause I told you before

Despite all the strength that I have in my mind  
instead of water always prefer wine  
and I don't know why  
waiting for the moment I can fly  
wash my pain away

sometimes I just wonder pray to god  
please let me stay  
Years nearly seven

and I know you're definitely watching me  
free me from this pain let me lane  
before I go insane

highly believe in you obey  
your command you are all I got  
right place right time one second right spot  
Things happen fast nowadays a dangerous life  
family is what we need  
some kids and a tough ass wife  
positiv or negativ vibes all up to you  
a second in your life

you can be free so remember be  
One second in my life is passing me by  
one second's passing by like a bird in the sky  
god let me know will I live or will I die  
and if I have to go I wanna go with a smile  
with a smile ah smile

Always paranoid try to avoid any bad news  
see what you see you better listen  
'cause it could be you  
death rate high as if we were flies

six million jews yo that made me confused  
Where the fuck was his brain even I feel ashamed  
one second dedicated to you guys  
let's stop killing one another realise  
someone explain why we really have to suffer  
How tough do we have to be let us recover  
another second close my eyes  
loose control I could die  
lucky we ain't alone so no woman no cry  
once again little sister let me tell you dry your eye  
Be strong as you know otherwise you won't survive  
life is too short could be trough in a second  
positive or negative vibes all up to you  
a second in your life  
you can be free so remember me  
One second in my life is passing me by  
one second's passing by like a bird in the sky  
god let me know will I live or will I die  
and if I have to go I wanna go with a smile  
with a smile ah smile  
with a smile ah smile  
One second  
One second  
One second in my life is passing me by  
one second's passing by like a bird in the sky  
god let me know will I live or will I die  
and if I have to go I wanna go with a smile  
with a smile ah smile  
with a smile ah smile  
One second  
one second  
one second
