

# Closer

## Illumination Worship

You are my peace when this chaos invades  
You broke down the wall for my rescue you came

Closer, draw me closer

You are my peace when this chaos invades  
You broke down the wall for my rescue you came

Closer, draw me closer

I want you more than anything  
And this world can't take you away  
You're all I want and you're all I need  
Won't you wrap your arms around me

Closer, draw me closer

I want to be where you are  
So let me dwell in your arms  
I want to be where you are  
So let me dwell with you

Closer, draw me closer
