

# I Bet You Don't Curse God

Christina Grimmie

[Verse 1:]

I bet you don't curse God  
When the doctor calls  
With a stern voice and the test results  
And he asks you to come in right away I bet you don't curse God  
When you're on a plane  
In a turbulence, pourin' rain  
And you're hoping that you'll make it out okay [Pre-chorus:]

Everybody cries  
We've all faked a smile  
When your back's against the wall  
And your hands are tied [Chorus:]  
There's pain, Life hurts  
There's a thousand things  
You think you don't deserve  
All hope is lost

When You spend it all  
And you just can't beat the odds  
I bet you don't curse God  
I bet you don't curse God [Verse 2:]  
I bet you don't curse God  
When your child is gone  
And he ain't picking up the phone  
And it's 2am on a Saturday in July I bet you don't curse God  
At your bottom line  
And your credit cards are all declined  
And you don't know where you're gonna sleep tonight [Pre-chorus:]

Everybody cries  
We've all faked a smile  
When your back's against the wall  
And your hands are tied [Chorus:]  
There's pain, Life hurts  
There's a thousand things  
You think you don't deserve  
All hope is lost  
When You spend it all  
And you just can't beat the odds  
I bet you don't curse God  
I bet you don't curse God [Verse 3:]

I bet you don't curse God  
When you're dying in bed  
About to take your one last breath  
And you're holding on before you say goodnight[Chorus:]  
There's pain, Life hurts  
There's a thousand things  
You think you don't deserve  
When all hope is lost  
When You spend it all  
And you just can't beat the odds  
I bet you don't curse God  
I bet you don't curse GodI bet you don't curse God
