Lifesaver

El

I find it hard to win
Back on the ground again
I feel like giving in
But you're my second wind

Don't you ever tire
Facing all my fires
I don't need no one but you right now
So, I say

[Refrain:]
Oh, my friend, you're holding out your hand
I take it like an oar from the depth
Hey, Lifesaver, I'm drowning in despair
But you're fighting for me right until the end.
You pull me back to land and save me once again

You help me wash away
The insane mistakes I made
And I see it in your face
My only source of grace

No, I don't take for granted
All the time you've wasted
Making sacrifices for a fool
So, I say

[Refrain]

You lift me higher,
You hold the fire,
You make me strong enough to stay
You lift me higher,
You hold the fire,
Made up stand tall
But without you I'd fall

[Refrain]

You lift me higher,

You hold the fire,
You make me strong enough to stay!
