

# Leave Me Lonely

Ratham Stone

Wake me up  
Lightning strikes again  
Stories left to be told  
Ran out of luck  
You're one way road ends  
At an empty pot where gold should go  
Care to save her now?  
Care to save her  
Oh, I'm standing in what's left  
Slow motion destruction, all from a car crash  
Oh, I'm not giving up yet  
I'll drive till the sun ignites branches of regrets  
I never thought that you would leave  
I never thought that you would leave me lonely  
Wake me up  
Can't believe I lost  
She's gone  
Right was to love  
God was above  
He's gone, he's gone  
Care to save her now?  
Care to save her now?  
Oh, I'm standing in what's left  
Slow motion, destruction, all from a car crash  
Oh, I'm not giving up yet  
I'll drive 85, take my chances with Satan  
I never thought that you would leave  
I never thought that you would leave me lonely
