

Dead Love Song

New Medicine

I didn't wanna break you down
I sacrificed myself, my conscious wouldn't let me out
Oh there's the cage I'm in, poison dropping on my skin
Goodbye's hanging on my tongue
And I know I'll die if I don't run
I only got one thing on my mind
Nothing's gonna stop me, not this time
Wasted, way too long, living in the lines of a dead love song
I've been afraid to let you know
I've been afraid to let you go
I've been afraid
I tell the truth for what it's worth
Sooner or later on, I know you're gonna hurt
Tears falling down like rain
Rest my heart and guild my vains
What's the point in being young if I can't regret the things I've done?
I got one thing on my mind
Nothing's gonna stop me, not this time
Wasted, way too long, living in the lines of a dead love song
I've been afraid to let you know
I've been afraid to let you go
I've been afraid
One thing on my mind
Nothing's gonna stop me, not this time
Wasted, way too long, living in the lines of a dead love song
I've been afraid to let you know, (dead love song)
I've been afraid to let you go
You're just a dead love song.
