

Dancing Off The Edge Of The World

Bad English

In the rhythm of the street the steam is risin'
You can feel the heat she puts on her makeup
Puts shoes on her feet she's going down tonight, hey
You can feel it from a distance like a nuclear bomb
She knows she's lookin' good with the new dress on
And all the guys with the x-ray eyes
Check her out as she walks on by
She's a primitive girl the jewel of my desire
A slave to the rhythm a rhythm machine
I wanna make that girl make that scene
There's a heatwave on the floor tonight
Watch her move watch her melt the ice
She's in ecstasy she spins and she whirls
Dancin' off the edge off the edge of the world
I'm lookin' for a hot romance
How am I gonna get that girl?
When she's dancin' off the edge of the world
Dancin' off the edge
Watch her move
In the rhythm of the beat she motions her body
She becomes complete with the rock 'n' roll music
It's indiscreet, it's sexual
You'd better cut her some space give her some air
You can try if you like but I wouldn't dare
She don't know it yet but this is a love affair
She's mine all mine
She's a primitive girl the jewel of my desire
A slave to the rhythm a rhythm machine
I wanna make that girl make that scene
There's a heatwave on the floor tonight
Watch her move watch her melt the ice
She's in ecstasy she spins and she whirls
Dancing off the edge off the edge of the world
I'm looking for a hot romance
How am I gonna get that girl?
When she's dancin' off the edge of the world
Dancin' off the edge
Just look at that girl
Watch her move, yeah

Watch her groove
Everyone sees me smile
From a million miles away
All the gigolos try and try
Their best move she just walks on by
There's a heatwave on the floor tonight
Watch her move watch her melt the ice
She's in ecstasy she spins and she whirls
Dancin' off the edge off the edge of the world
Dancin' off the edge, the edge of the world, yeah
Dancin' off the edge, the edge of my world
Dancin' off the edge
