

# Acid

## Toddla T Sound

Well, I been trippin' for 10 hours on 3 hits of liquid microdot  
(I'm on acid, acid)

Gettin' chased around the car by some midgets in the parking lot  
(I'm on acid, acid)

Eatin' doritos through a tree, a million spiders after me  
(I'm on acid, acid)

I'm runnin' around havin' a fit on myself, I'm about ta shit  
(I'm on acid, acid)

Can you imagine feelin' all calm

Then all of the sudden, your fingers get numb?

Knees start freezin', what is the season?

Where we at? And why we leavin'?

Trees are shrinkin', turnin' plants ta roots

And roots back inta seeds

And clowns are changin', comin' at me

Different directions, now I'm freakin'

Hoe's are rakin', body shakin', Mane, I thought it was some crack  
Called the fire department, told 'em I had a flame upon my back

This shit's crazy, plus enable, raisans dancing on the table

There's the horse, we got a horse, yeah we do and I seen the stable  
Quit yo flauгин', I ain't flauгин', got a beat in who ya talkin' to

I'm talkin' to you, talkin' to me

Listenin' 'cause I have you and I have to

Be kinda smart to even catch that

I might be trippin' but the pimpin' grippin' gatta spit that

With no expectancy I made a party from a rivalry

Accidently, kicked then tripped the beef when he had ran by me

Fuck police, we gon' sanish this trick too well

As the 50 shot of purple microdot, you will be gone a week

20-20 vision blur and can't even feel the syrup

(I'm on acid, acid)

I can smoke a pound of dro, drink myself unda the flo'

(I'm on acid, acid)

Put the straw up ta your nose, take the blow straight ta your dome  
(I'm on acid, acid)

You passin' out in my front yard, throwin' up on Xanax bars  
(I'm on acid, acid)

Well, I wishin' I was sober, feel the shit from head ta shoulders

This ain't even halfway over, it's the part, I'm waitin' ta show ya  
Laughin' long time like hyenas, laughed a long time at vienas  
In the can or out the can, they still look like a can a penis  
I'm the meanest, acid-takin', down-south-cracka on the mic  
Change start crankin', gotcha thinkin', good trip gon' turn ta a fright  
Bubble poppin', trails are watchin", foes done cross the fuckin' room  
My dogs came in the den and made a mess  
And then that's for the broom  
Now I'm 'bouta hit the sack 'cause I can't take this shit no more  
Relax my mind, take a deep breath and let my head sink in pillow  
Take a seven hour nap, wake up seven minutes later  
This the greatest drug the seventies is ever fucking gave us  
Yes, it's major don't be playin', when you drop it will hit ya  
If it's gel caps or liquid, microdots yes, I'm wit'cha  
And I'm flippin' cross the roll, visual contact lightning globe  
The space ship I'm flying landed in the Bay, I have ta go  
By now, I'm weak in some pain and my body's feelin drained  
(I'm on acid, acid)  
Comin' down upon my trip and my skin's abouta rip  
(I'm on acid, acid)  
I'll prolly sleep till Thursday and it's only Sunday  
(I'm on acid, acid)  
Wakin' up on that Thursday to have another Saturday  
(I'm on acid, acid)
