Gonna Back Up Baby

[Gene Vincent](#)

Gotta tell you baby, everything's alright
Well I told you baby, where I was last night
But no matter what I say baby, you can't see the light
Gotta tell you baby, promises I kept
Well, I told you baby, sort a step by step
But no matter what I say baby, I'll live without your helpGonna back up baby and start all over again
Gonna back up baby and start all over again
But even if I do, I know you're gonna make me tell you again
Hang on rock Blue Caps, let's go nowGonna tell you baby, one time again
Gonna tell you every place that I've been
So listen now baby, till I get to the end
'Cause I'm gonna keep on coming till you give inWell I tell you baby, gotta change your mind
Well I'm talking baby, till I'm almost blind
But no matter what I say baby, I'm just not that kind
Rock again, Blue Caps
