

# Lost Someone

## James Brown & His Famous Flames

I lost someone  
A million to one  
Ten thousand people  
Under my fault  
Someone, the one  
My one, the only one  
That's the someone  
The someone, the only one  
That someone that I lost  
You're nothin' but a stranger  
Come on home to me  
I'm so weak on my knees  
Help me, help me please, please, please  
Cook outta money, I love you

I lost someone  
One trillion to one  
A million people  
Under the big old sun, the sea  
My one on the street  
Lookin' like a bomb  
That's my one  
That's my someone, he's the one  
Please help that one  
He's nothin' but a stranger  
Bring him home to me  
He's so weak on  
Both his bended knees  
Can you help me, help me please
