Anthem

Superchick

Here's to the ones who don't give up
[3x]This is your anthem, get your hands up
We are fire inside, we are lipstick and cleats
We are not going home, and we are playing for keeps
We are girls with skinned knees, we are concrete and grace
We are not what you think, you can't keep us in our place
Here's to the girls on their boards with bruises and scars
Here's to the girls whose fingers bleed from playin guitar
Here's to anyone who never quit when things got hard
You'll never let them say you'll never get that far
We are fire inside, we are an army asleep
We are a people awaking to follow their dreams
We don't have time for your games

We have our own goals to score
There are trophies to win instead of being one of yours
Here's to the girls on their boards with bruises and scars
Here's to the girls whose fingers bleed from playin guitar
Here's to anyone who never quit when things got hard
You'll never let them say you'll never get that far
Here's to the ones who don't give up
[3x]This is your anthem (anthem)
Here's to the girls on their boards with bruises and scars
Here's to the girls whose fingers bleed from playin guitar
Here's to anyone who never quit when things got hard
You'll never let them say you'll never get that far
