

# Live It Up

## Marshall Crenshaw

You never want to comfort me  
Knowing what you really need  
You always say you've had enough  
You never want to give it up[Chorus:]  
But everybody's got to move and  
Everybody's got to groove  
Everybody needs love sure enough  
Everybody ought to live it up  
Well what did I do that was wrongI just want to have some fun  
We've been holding back for too long  
And I want to live, we've gotta live it up  
I've got to ease your mind  
I know I'll have a bit of luck  
To make you have a good time  
I've got to make you live it up
