Let's Be Kids

Howling Bells

Let's be kids again Life was so simple then Let's be kids again, againWe don't wanna know about this currency We don't wanna know about this 9 till 5 Just a simple life, can you picture this, yeahWe don't wanna hear about your policies We don't wanna live up to these expectations A child like dream, yeah, you know what I mean, yeahLet's be kids again Life was so simple then Let's be kids again, againEveryone's gotta reason to be free Everybody wants a lifetime just to be A child like dream, yeah, you know what I mean, yeahLet's be kids again Life was so simple then Let's be kids again, againSomebody told me, don't ever look back Just look to the future, well, I can do that But just for a moment I wanna be free To dream how I used to dream we could beLet's be kids again Life was so simple then Let's be kids again, againLet's be kids again Life was so simple then Let's be kids again, again
