Never Saw Goodbye

Dallas Smith

I the way she fit right in
My house, my arms
Like she was meant
To be right here

I saw the future dressed in white
Wrapped up in 10,000 nights
I saw the years
It seemed so clear

And i saw the way she smiled...

Chorus:
But i never saw goodbye
It never crossed my mind
She would ever really walk away
Never really say why

I never saw the signs
It caught me by surprise
Now i'm standing where she left me
How could have been so blind?

I never saw goodbye
I never saw goodbye

What if i had opened up my eyes
Listened closer
Took more time
But things have changed

Instead i'm standing here alone
All i see is that she's gone
The still lifes fade
Now its too late

And i saw my life pass by
But still i wonder why

I never saw goodbye

It never crossed my mind
She would ever really walk away
Never really say why

I never saw the signs
It caught me by surprise
Now i'm standing where she left me
How could i have been so blind?

I never saw that look in her eyes
The one that said we're running out of time
I never heard those words she say
Never seemed she was always walking away

I never saw goodbye
It never crossed my mind
She would ever really walk away
Never really say why

I never saw the signs
It caught me by surprise
Now i'm standing where she left me
How could i have been so blind?

I never saw goodbye
I never saw goodbye
I never saw goodbye
I never saw goodbye
