

# Calculating Bimbo

## Belle & Sebastian

A lack of understanding  
You took for being lazy  
I was just being lazy  
I'm even doing it now

I know that you have saved me  
I love that you have saved me

Save your pennies careful  
Let both blue eyes be watchful  
It's best to forget freedom  
It's best to be enslaved

It's better still to love first  
It's harder still to love first

You're my winter queen that disappeared  
Your hands grew cold  
You ran a mile from my ways  
I still heard you had a fourth floor view  
With lots of time  
A notebook full of the finest, creamy, rich girl parchment pages  
Slowly fill with all your passing days  
Every sacred word paints a picture

Bigger were his muscles  
Than father ?  
But when you are in trouble  
And when you are uptight

I get the midnight phone call  
I'm your captain for the long haul

If someone else is near me  
You scuttle up the pavement  
It's no one that I care for  
I pause for an effect  
You calculating bimbo  
I wish you'd let the past go
