We Walk on Water

Shonlock

It's been a while since you've smiled can I see it again
Broken in stumbling you still have a friend
I'm reaching out dark clouds get outta the way
Today's the day it's ok remember what you've prayed/

(Chorus)
We walk on water ah ah oh
Don't you let go don't you let go
When it gets harder ay ay oh
We get back get get back up
And do it again

You're standing out of the edge
Don't know how to begin
You'll never know if you don't go
Just embrace the wind
The oceans roar and the shore seems far away
The path is laid come what may they'll just have to obey

(Chorus)

No longer sinking
No longer sinking
I can see the surface now
No longer sinking
I can see it
I can see it
We get back up get get back up
and do it again

(Chorus)
