Float

The Neighbourhood

Imagine breathing in
Imagine leaving all your air behind
What matters in the end
A matter of opinion til' you find out
Life can only, mean hardly anything
All I'll ever be is hardly settled in
(Chorus)
They'll show you how to swim
Then they throw you in the deep end
I've been learning since
But it doesn't mean I'll float
I won't float
I had a funny sleep
I didn't have a dream cuz' I don't believe in them
Life can only mean, hardly anything
All I'll ever be is hardly settled in
(Chorus)
They'll show you how to swim
They'll throw you in the deep end
I've been learning since
But it doesn't mean I'l float
I won't float
Float away then come right back to me
(2x)
(Chorus)
They'll show you how to swim
They'll throw you in the deep end
I've been learning since
But it doesn't mean I'l float
I won't float
What if I don't float
(2x)
I think I'll float
I'll float
I'll float away
