

We Are Mice (Bleed Version)

[Azure Ray](#)

It's all in the eyes
The reckless way we dream to die
Our past is our future
The present lies somewhere between our hearts and minds
For those with no future
We'll touch hands on the street
Smile and keep moving on towards the heat
So keep this a secret, oh love of mine
They are elephants, we are mice
We'll walk this earth, somnambulant kin
With broken hearts that cannot mend
Losers first and second men
We'll do our best to blend in
You could reach out for my hand and I yours
Deliver water to soothe the burn
We'll drink our tears and thirst for more
