

# Black Snake Sister

## Bloodflowerz

when the evil sea starts to gorge the sun  
blood red shadows fall, swallow your last call  
the greedy laugh of sins catches you while you run  
drunken passion awaits you in the night  
awful sin spits the plaque over the land  
feel the fever heat, you're in my hand eternal mistress of life, cruel queen of the damned  
skin like fallen snow, eyes of an ancient crow  
the one you love and i'm the one you burn in flames  
i've hundred faces and i have one million names call me demon, call me maria  
call me kali, call me venus  
i'm your black snake sister life is the bride of death at night  
shadows kiss the dawn, light will be reborn  
sleeping sin is so sweet in the arms of creed  
don't fear when you die, your god is a lie kiss my skin, be my hero for this night  
be my king, we are one and turn to light when the evil sea starts to gorge the sun swallow your last call  
when the evil sea starts to gorge the sun blood red shadows fall
