

Three Rings

Grizzly Bear

You move on again
See that time to flee again
You always make it alright
Is that the way it is?
Let's get along again
You know your move around the bend Why is that the way it is?
The morning only showed I wanna show you my bad side
I wanna be the guy who's right
I want you to see things clearly
I wanna make it alright Don't you be so reasoned
Don't you know that I can make it better?
Don't you ever leave me
Don't you feel it all come together?
