

Forever in Me

[Lucina](#)

One moment you're here, the next you're gone
If it's so natural, why does it feel so wrong?
And as the time goes by, life goes on
But it doesn't change the fact I miss you now you're gone Forever in me, forever in us
Forever in the hearts of the ones you loved
Forever in me, forever in us
Forever in the hearts of the ones you loved Forever in me me me
Forever in us us us
Forever in me me me
Forever in us us us The sun still rises, sun still sets
And after all this time you still come into my head
If you are listening to me now, it needs to be heard
You'll never be forgotten because I, I love you so Forever in me, forever in us
Forever in the hearts of the ones you loved
Forever in me, forever in us
Forever in the hearts of the ones you loved Forever in me me me
Forever in us us us
Forever in me me me
Forever in us us us Forever in me me me
Forever in us us us
Forever in me me me
Forever in us us us Forever in me, forever in us
Forever in the hearts of the ones you loved
Forever in me, forever in us
Forever in the hearts of the ones you loved Forever in me
