

Never Repent

Like Moths to Flames

I'll spit back every word that you threw in my face
Hell is home either way
Another nail in the coffin
For the first time in days, I see clearly
I won't lead myself blindly to the light
There's no truth that will give me peace of mind
What did you expect?
For me to bow down and beg for forgiveness?
I won't give in
How does it feel for your words to be irrelevant?
Just know that there will be no song of grace to lead you in
No holy water that will rid you of your sins
There will be no light to pull you from the dark side
Left to decay inside your own lies
Fiction will never become fact
To each their own
We all breathe our last breath alone
Fiction will never become fact
All hope is dead and gone
He's never coming back
I will bear a new cross to show what I've lost
Speak now or forever hold your tongue
When you look up to the sky above, do you feel anything but empty love?
The dying things you're living for
Give it up
Give it up
There will be no song of grace to lead you in
No holy water that will rid you of your sins
There will be no light to pull you from the dark side
Left to decay inside your own lies
I will never repent
My blood's already been spent
Choke on the words you preach
You're not heaven sent
I will never beg for your forgiveness
I will never repent
