Wet Like A Dog

Ginger Ninja

Verse:
Wet like a dog
Darkness is where I roam
The end of the road
Wet like a dog
Darkness is coming down
Falling over meChorus:
Can't you see
You're the difference to me
You're the right canticle, right canticle baby
Some might say there's other fish in the sea
But you're the right, right canticleVerse:
Wet like a dog
Darkness is soft as silk
When much as I can
And there's next to see
A new apple tree and climate truth within reach
You're fallin' over meBridge:
Systems are falling out (5x)
