

# Dangerous Mindz

## AutNoyz

I got stress on my brain that causes chest pains  
Inside the best frames, ghetto blood clots is scored by slug shots  
And drug spots, well, if you're too poor to move out  
Or get a new house, it's like livin' in a war, walkin' through shootouts  
And you doubt God exists, when hard fists  
Be poundin' on your head like jackhammers  
You're trapped in the black drama, you hear the laughter  
Seconds after that you fade out, you're played out, you're laid out  
Your heart nearly gave out, you're lucky that  
you made out  
With just a few scars when the beating ends  
The streets let ya breathe again  
But evil men, will soon be on the receiving end  
Of Universal Law, I'm callin' on the meek and the poor  
To fight back and never forfeit the day you have to go to war  
With forces that are armed upon the seven continental borders  
A mental fortress is essentials to absorb this  
My sword hits the human orb until it orbits  
In the art of war kids see Grym Reap be morbid  
Since pieces of the lost civilization in the past  
Had my photographs etched inside of pyramids  
To laugh at this revelation, without 365 days of concentration  
And twenty-four hour meditation, would be foolishly pagan  
I'm ancient as 'Amen', see I stay Grym  
Throwin' fools in in a pit full of pit bulls to be shaken  
Or strapped to the crossroads of Hell and inner sin  
Which trap the sinners in to sell such a Sing-Sing  
I bring Grym tidings, tidal your wave all not exciting  
Stop riding the dick, start writin' your own shit  
Cause I stick figures, they think they fat and can't rap wind blast  
I make 'em Slim Fast, lookin' like stick figures  
I'm all that, I bag chips at concerts and shows  
Get more panties than hoes that boost Victoria Secret clothes  
Foes is tagged like ex-foes toes at the coroner's  
Kids with cold feet rise and fall like the barometer  
Grym will mentally chop your career  
See, shit is locked down here, like penitentiary blocks in tears  
Escape outta your ducts, every time you hear my  
name  
You better duck fate or catch a fuckin' face full of duct tape  
You get smacked like a trick that sniffed off her money  
Then smoked like Rzarector with the blunts dipped in honey  
Rotate your head like a gyro, my hair grows in  
knotty spirals  
Feet resembles Christ's description from the Bible  
Water-walker, immune to all physical torture  
Pull out fast in a Porsche upon a double-crosser  
My penis rise up in the morning like a Phoenix  
And blast iron cells into a low blooded 'nemic  
The imperial material's venereal

MC's get murdered in serial, you can't fuck with the materialUnorthodox paradox, my shit is seen wide-screen

Magnavox

Grabs thought like Doctor Octopus

'Cause war like the grandson of Kush

I'm hangin' devil's heads on a evergreen bushSugar-frosted sorceresses, bitches get exhausted

Pussy lips be drippin', like leaky faucets

Undercover C-Cyphers sprayed up like windshield wipers

While I'm guzzlin' Piper's, changin' my son's shitty-ass diapersDime piece trapped in sync like many time  
piece

You get stampeded by the wildabeast

A rap dast' plus tracks black like Chow Yun Fat

Oppositional forces get their eardrums flatCommon denominator, I swing the mic saber like Vader

He was fooled by the interpretation made from a traitor

MC's get their wigs blown, trounced off my fistbone

Choked from my death, every time they break a wishboneEventually, I knew the whole world would mention me

Potentially, I have the key to make G's

MC's breeze on my tracks, I rock the root with the trees

Killa bees spread rapid like diseasesSee it's, like the second comin' of Jesus, of Nazareth

Be fabulous, raise the dead crowd up like Lazarus

Hazardous vocabulary attacks be beautiful

Acoustical notes we provoke, it comes out musically dopeNiggaz realize they just can't cope

They're here, bustin' out the head resembles fire and smoke Loc

I blast watts in circuits like General Monk-Monk was Turkish

My science is divided deep into your central nervousPervert area codes peep this murder

I'm boxed-in, suckin' hologram tits, inhalin' oxygen

Parallel world of crab niggas and sea shells mix

I pierce my dick and sword right through you pelvicsI'm hell stricken bomb, wrapped in trees of palm

Physical existence is descendants of Allah

I travel at high rates, weaker men are primates

That either migrate or get burnt to the stakeI feed off lyrical light beams of amphetamine

My terminology is panatomic like lobotomy

Crazy el loco, gas niggaz like Sunoco

Flush 'em like Presto, Blast in your chest boneI raise from the shore, like Sodom and Gomorrah

With traction, flashin' a 4-wheel drive Ford Explorer

While mucus lies within the center of the Rubik's

The roots of the wine induced the enzymes inside your nucleusTurmoil boilin' appointed, niggaz rubbin' off my  
style like a ointment

Lost in the Sahara, From trial and error

Confused with 3 meals for Sister SaraBearer, digestin' minerals in abundance

Because the dead is not known to return from the dungeons
