

Journey to Arnhemland

Jamiroquai

Written by jay kay, wallis buchanan and toby smithPersonnaly I like a lot this song. they get to fusion the didgeridoo vibes with the song very smoothly, so this is a cool tune where you don't feel the didgeridoo like an uncomfortable sound beh
Here. and when you listen to it you can imagine yourself travelling, travelling in a journey to arnhemland. two thumbs up.
