The Last Word

Pigface

You can have it
I don't want it
An' when you've got it
I'll be gone
It won't matter
What you're sayin'
When the damage
Has all been done
Can't seem to keep the faith
As if that's all I need to do
I'd rather walk away than
Take what belongs to you
You can have it
I don't want it
And when you've got it
I'll be gone
It won't matter
What you're sayin'
When the damage
Has all been done
Some words will cut you down
Like you were only in the way
Why should I stand this ground?
It won't hurt as much to say
You can have it
I don't want it
And when you've got it
I'll be gone
It won't matter
What you're sayin'
When the damage
Has all been done
Sometimes we're blinded by
The very thing we need to see
I finally realize that you
Need it more than you need me
You can have it
I don't want it
And when you've got it

I'll be gone
It won't matter
What you're sayin'
When the damage
Has all been done
The damage
Has all been done
