

Wonderwoman (feat. Jake Miller)

Sweet California

Go ahead and use your superpowers!
Wonderwoman, wonderwoman!
You know you got them superpowers
Wonderwoman, wonderwoman If he's actin' up, you need to tighten up your tactics
You can let'em see the game but they can never see the practise
If he's showin' his ace, show him the hand you're holdin'
And don't you ever forget that the card that you're holdin' is golden So if you wanna play it rough call his bluff
If he don't know how to play take his toys away
If you wanna be the fool tell him it's cool, it's cool Go ahead and use your superpowers!
Wonderwoman, wonderwoman!
You know you got them superpowers
Wonderwoman, wonderwoman Pop, pop, pop that power
Pop, pop, pop that power
Pop, pop, pop that power
If he's actin' up you gotta pop that power Make him do anything you want just learn to control your power
If you've got what they need you've got the control So if you wanna play it rough call his bluff
If he don't know how to play take his toys away
If you wanna be the fool tell him it's cool, it's cool Go ahead and use your superpowers!
Wonderwoman, wonderwoman!
You know you got them superpowers
Wonderwoman, wonderwoman Why you wanna lock me down and tighten up your g-string?
No need to overreact, baby just maintain
You know I was only playin' please don't let this be a issue
Girl I swear that I'm official, I was just sayin'
Pop a tec, pop a bottle, baby pop your collar
Pop anything in the world and say you got the power
You know I can't live without that lovin'
Girl, you know you're my wonderwoman Go ahead and use your superpowers!
Wonderwoman, wonderwoman!
You know you got them superpowers
Wonderwoman, wonderwoman Pop, pop, pop that power
Pop, pop, pop that power
Pop, pop, pop that power
If he's actin' up you gotta pop that power Pop, pop, pop that power
Pop, pop, pop that power
Pop, pop, pop that power
If he's actin' up you gotta pop that power
