

Far from the Fame

Sabaton

As the great war is over and lost
He's been wounded in war, he returns with awards
Into battle again far from home
From a far distant land, our Marshal command Home
Siblings sent to their death
His wife paid the ultimate price
Still
As the war rages on
You are our guide Far, far from the fame
Far, far away from the fame
But we still remember your name
Karel JanouÅek!
We mourn the day that you died
So be our guide, Czechoslovakia's pride When the war has been fought and been won
Our Marshal returns, to be thrown into jail
Facing torture and years behind bars
When he's finally back, life in ivory black Home
Siblings sent to their death
His wife paid the ultimate price
Still
As the war rages on
You are our guide Far, far from the fame
Far, far away from the fame
But we still remember your name
Karel JanouÅek!
We mourn the day that you died
So be our guide, Czechoslovakia's pride Far, far from the fame
Far, far away from the fame
But we still remember your name
Karel JanouÅek!
We mourn the day that you died
So be our guide, Czechoslovakia's pride Far, far from the fame
Far, far away from the fame
But we still remember your name
Karel JanouÅek!
We mourn the day that you died
So be our guide, Czechoslovakia's pride
