Valsa Carioca

Sergio Mendes

Wasnt really thinking, wasnt looking , Wasnt searching
For an answer
In the moonlight
When I saw your face
Saw you looking at me, saw you peaking Out from under
Moon beams
Through the palm trees
Swaying in the breeze
I know that Im feeling so much more Than ever before
And so Im giving more to you that I Though I could do
Dont know how it happened, dont Know why, but you dont
Really need a reason
When the stars shine
Just to fall in love
Made the love each other, made to be Together for a life time
In the sunshine
Flying in the sky
I know that Im feeling so much more Than ever before
And so Im giving more to you that I Though I could do
Now I know love is real
So when the sky high, as the angels dry
Letting you and I fly love
